Privacy Policy for Freestyle Studio

Effective date: 10 November 2026
Developer: CSV Production s.r.o.
Contact: csvproductionsk@gmail.com

This Privacy Policy explains how the Freestyle Studio mobile app for iPhone and iPad (the "App") handles your information. The App is developed by CSV Production s.r.o. ("we", "us"), which is responsible for the App within the meaning of the EU General Data Protection Regulation (GDPR).

1. Summary

- The App does not require an account or registration.
- The videos you work with and the rides you score are processed only on your device. They are never uploaded to us.
- We do not collect, store or sell any personal data through the App.
- The App contains no advertising, analytics or tracking, and no third-party SDKs.
- Payments and subscriptions are handled entirely by Apple.

2. Information processed on your device

To score freestyle rides, the App works with the following information. All of it stays on your device and is not transmitted to us:

- **Videos you select.** When you choose a video from your Photos library or the Files app, the App stores a copy in its private storage on your device so it can play it and use it for scoring.
- **Ride data.** The athlete name you enter, recorded moves and bonuses, scores, start and stop times, ride length, zoom settings and measured angles.
- **Exported videos.** Portrait videos you create are saved only where you choose, for example to Photos or Files, or shared using the iOS share sheet.

3. Photo Library and Files access

The App asks for access to your Photos library only to let you select the ride videos you want to analyze and, if you choose, to save exported videos. The App can access only the videos you pick. You can change this permission at any time in iOS Settings. Videos you import from the Files app are accessed only after you select them.

4. Purchases and subscriptions

The Calculator mode of the App is free. The Video Coach mode requires an auto-renewable subscription that is purchased through the Apple App Store. Apple processes the payment and manages billing, renewals and cancellations. We do not receive your name, email address or payment card details. The App checks only whether a subscription is active, using Apple's StoreKit service on your device. Apple's handling of your data is described in the Apple Privacy Policy at apple.com/legal/privacy.

5. Information we do not collect

We do not collect your name, email address, location, contacts, device identifiers, usage statistics, crash reports or any other personal data through the App. The athlete name you type is stored only on your device and appears only in videos you export yourself.

6. Links to other websites

The App contains links to external websites, such as the ICF freestyle rules. These open in your web browser and are governed by the privacy policies of those websites. We do not control and are not responsible for them.

7. If you contact us

If you email us, we receive your email address and the content of your message. We use this information only to respond to you and delete it when it is no longer needed for that purpose.

8. Data retention and deletion

Ride data and imported video copies remain on your device until you delete them in the App or delete the App. Deleting the App removes all of its data from your device. Videos you exported to Photos or Files remain there under your control.

9. Children

The App does not knowingly collect personal information from anyone, including children.

10. Your rights

Under the GDPR you have the right to access, correct or delete your personal data, to restrict or object to its processing, and to data portability. Because we do not hold personal data from the App, there is normally no data for us to provide or delete, but you may

contact us at any time with questions. You also have the right to lodge a complaint with a data protection supervisory authority. In Slovakia, this is the Office for Personal Data Protection of the Slovak Republic (dataprotection.gov.sk).

11. Changes to this policy

We may update this Privacy Policy from time to time. The current version is always available at the same address, and the effective date above shows when it was last changed.
