Privacy Policy for GateSplit

Effective date: 25 October 2026
Developer: CSV Production s.r.o.
Contact: csvproductionsk@gmail.com

This Privacy Policy explains how the GateSplit mobile app for iPhone and iPad (the “App”) handles your information. The App is developed by CSV Production s.r.o. (“we”, “us”), which is responsible for the App within the meaning of the EU General Data Protection Regulation (GDPR).

1. Summary

- The App does not require an account or registration.
- The videos you work with are processed only on your device. They are never uploaded to us.
- We do not collect, store or sell any personal data through the App.
- The App contains no advertising, analytics or tracking, and no third-party SDKs.
- Payments and subscriptions are handled entirely by Apple.

2. Information processed on your device

To compare runs, the App works with the following information. All of it stays on your device and is not transmitted to us:

- **Videos you select.** When you choose a video from your Photos library, the App stores a copy in its private storage on your device so it can play and edit it.
- **Comparison data.** Start and finish times, penalties, zoom settings and saved project files.
- **Exported videos.** Comparison videos you create are saved only where you choose, for example to Photos or Files, or shared using the iOS share sheet.

3. Photo Library access

The App asks for access to your Photos library only to let you select the videos you want to compare and to save exported videos. The App can access only the videos you pick. You can change this permission at any time in iOS Settings.

4. Purchases and subscriptions

The App offers an auto-renewable subscription that is purchased through the Apple App Store. Apple processes the payment and manages billing, renewals and cancellations. We do not receive your name, email address or payment card details. The App checks only whether a subscription is active,

using Apple's StoreKit service on your device. Apple's handling of your data is described in the Apple Privacy Policy at apple.com/legal/privacy.

5. Information we do not collect

We do not collect your name, email address, location, contacts, device identifiers, usage statistics, crash reports or any other personal data through the App.

6. If you contact us

If you email us, we receive your email address and the content of your message. We use this information only to respond to you and delete it when it is no longer needed for that purpose.

7. Data retention and deletion

Saved project files can be deleted at any time in the Files app. Deleting the App removes all of its data, including imported video copies, from your device. Videos you exported to Photos or Files remain there under your control.

8. Children

The App does not knowingly collect personal information from anyone, including children.

9. Your rights

Under the GDPR you have the right to access, correct or delete your personal data, to restrict or object to its processing, and to data portability. Because we do not hold personal data from the App, there is normally no data for us to provide or delete, but you may contact us at any time with questions. You also have the right to lodge a complaint with a data protection supervisory authority. In Slovakia, this is the Office for Personal Data Protection of the Slovak Republic (dataprotection.gov.sk).

10. Changes to this policy

We may update this Privacy Policy from time to time. The current version is always available at the same address, and the effective date above shows when it was last changed.
